

# DUET

## SHAPER – FINISHER

The perfect file from side to side, end to end,...and start to finish

- Cushioned file
- Foam buffer
- Designed for maximum comfort, speed, and efficiency

### DUET SHAPER-FINISHER 240/280

- White with a pink ABS plastic center
- Leaves a satin smooth finish
- Long lasting
- For natural nails and artificial enhancements

**THIS PRODUCT:** The Duet 240/280 shaper-finisher is sanitizable and very durable. The grit is fine enough to use on the natural nail along with finishing artificial enhancements to a smooth finish.

**HOW TO USE:** When finishing artificial enhancements; use the 240 duet file on top of the nail surface to refine the surface of the nail. Next flip the Duet and use the 280 Duet buffer to smooth out the surface of the nail.

When doing a manicure: use the 240 Duet file to file the free edge of the natural nail. Next flip the Duet and use the Duet buffer to smooth out any ridges on the surface of the nail.

## DUET SHAPER-FINISHER 180/180

- White with a blue ABS plastic center
- Start to finish tool
- Long lasting
- For acrylic, gel or wrap services

**THIS PRODUCT:** The Duet 180/180 shaper-finisher is sanitizable and very durable. Designed for shaping and smoothing the nail surface.

**HOW TO USE:** When finishing artificial enhancements; use the Duet 180 file to shape the surface of the nail and refine the sidewalls. Next, flip the Duet and use the buffer to smooth out any scratches. You can also use the 180 Duet to prep the nail for artificial enhancements. When applying wraps, the 180 Duet is the only file that you need to start and complete the service.

## DUET SHAPER-FINISHER 100/100

- White with a green ABS plastic center
- Long lasting
- Fast and efficient

**THIS PRODUCT:** The Duet 100/100 shaper-finisher is sanitizable and very durable. Designed for maximum speed and efficiency.

**HOW TO USE:** When finishing artificial enhancements; use the 100 Duet file to shape and shorten the nail. Next, flip the Duet and use the buffer to help reduce scratches.

**SANITIZABLE:** The Duet buffers are sanitizable, and can be soaked in solution. They should be allowed to dry completely before using. This is possible because of the plastic ABS center and the high quality abrasive paper.

**Available in: 8pack&25 packs**
