

OUT THE DOOR ACRYLIC SCULPTING POWDERS

THIS PRODUCT: Out the Door powders are polypure polymer. It is a fast setting polymer that offers superior control and expert workability. It will not run into the cuticles and offers a creamy, controlled application.

HOW TO USE: To apply use with Out the Door monomer. Use a ratio of 2 parts liquid and 1 part powder. This will give you a creamy application with total control. Application may vary depending on climate conditions. Cold weather may cause it to set up slower while hot weather may cause it to set up faster.

THE BENEFITS ARE: Superior control and enhanced strength give you the ability to produce thin, strong, natural looking nails.
