

# SOLO SHAPERS

## THE RIGHT TOOLS FOR THE RIGHT JOB

- Durable
- Washable versatile
- Long lasting
- Shaped for maximum efficiency- versatile “Torpedo shape”
- Made from the finest quality abrasive materials
- Color coded by
- grit

### SOLO SHAPER 240

- White with a pink center
- Extra thin
- For use on artificial and natural nails

**THIS PRODUCT:** This white washable file is extra thin to help file side walls. The grit is also fine enough to use when finishing artificial enhancements and shaping the natural nail.

**HOW TO USE:** When finishing artificial enhancements; use the 240 after using the 180solo shaper and before buffing. Use on top of the nail surface and to help refine the sidewalls.

When doing a manicure the 240solo shaper is gentle enough to shorten and shape the natural nail.

### SOLO SHAPER 180

- White with a lavender center
- For use on all artificial enhancements and natural nails

**THIS PRODUCT:** This washable file is designed primarily to refine and contour the nail surface. It is also recommended to prep the natural nail with the 180solo shaper.

**HOW TO USE:** When finishing artificial enhancements; use the 180solo shaper after using the 150solo shaper and before using the 240solo shaper. Use on top of the nail surface to refine and contour the nail surface and straighten the sidewalls. When preparing the natural nail for an artificial enhancement; use the 180solo shaper to etch the natural nail plate.

### SOLO SHAPER 150

- Grey (zebra) with a blue center
- For use on all artificial enhancements

**THIS PRODUCT:** This file is designed to refine and contour the artificial nail. Great for use on acrylic and gel enhancements as well as blending tips.

**HOW TO USE:** After applying the artificial enhancement, use the 150solo shaper to contour and refine the nail and the sidewalls. Use the 150solo shaper before the 180solo shaper and after using the 100solo shaper.

### SOLO SHAPER100

- White with green center
- For use on artificial nails only

**THIS PRODUCT:** This washable file is designed to shape and shorten artificial enhancements.

**HOW TO USE:** After applying acrylic, use the 100solo shaper to remove any bulky areas of acrylic. Use the 100solo shaper before using the 150solo shaper. It is also recommend to shorten your enhancements with the 100solo shaper.

**WASHABLE:** "Washable" files cannot be soaked in liquid. They can be rinsed and gently scrubbed with a soft brush, but must be allowed to completely dry before re-using. They can also be lightly sprayed with sanitizer, and allowed to dry.

**Available in: 12 and 50 pack**
